

USD 410 Quarantine Explanations

Student Name: _____

Day 0 : _____ Day 3: _____ Day 5: _____ Day 7: _____ Day 10: _____

Positive Case

Student isolates for 10 days out of school from the first day of symptoms.

Household Contact

Vaccinated Student/Athlete (or lab confirmed positive case within 6 months)

Recommended testing on days between 3-5 and days 7- 10.

Masks needed until isolation is ended, 14 days after the positive test.

Masks are not required while actively participating in athletics/PE.

Unvaccinated Student/Athlete

Quarantine: Must stay home while positive case is in isolation.

After quarantine ends student returns to school with negative test on days 0,3,5,7.

Masks are required at school through day 7 after isolation has ended.

Must follow KDHE quarantine outside of school.

Masks are not required while actively participating in athletics/PE.

School Contact

Vaccinated Student/Athlete

Recommended testing on days between 3-5 and days 7-10.

Masks not required.

Unvaccinated Student

Test on days 0,3,5,7. Negative test required for return.

Mask required through day 7 of last contact.

Masks are not required while actively participating in athletics/PE.

*If family would prefer to not participate in testing to stay, then quarantine at home for 10 days.

Unvaccinated Athlete

Wear a mask and test daily through days 0-10.

Masks are not required while actively participating in athletics.

*Home tests and antibody tests are not results that allow for a student to stay in school.

*If testing days falls on the weekend, student will be tested the next available testing day.
