

# Stanford | Pre-Collegiate Summer Institutes

## Expand Your Intellectual Horizons This Summer

2 Weeks • Grades 8 - 11 • Online Program

**Stanford Pre-Collegiate Summer Institutes** is a summer enrichment program that provides passionate and intellectually curious students with intensive study in a single course. Our program covers advanced subjects rarely taught in high school, offering students a chance to challenge themselves by diving deep into cutting-edge topics.

### Single-Subject Study

Our summer courses provide in-depth and interactive exploration of academic material. Courses are available in subjects including computer science, math, creative writing, social justice, engineering, and more.

### Live Online Classes

With small class sizes, our online classes allow students to engage in every aspect of a course through real-time discussions in which instructors and students see, hear, and interact with one another.

### Global Focus and Real Connections

Bright peers from around the world create a truly special and unforgettable experience. Study and discuss academic topics alongside peers who share the same interests and curiosity.

Application Deadline: March 29, 2024
